Dear Alex,

I want to encourage young people in our school to study natural sciences. Natural sciences is Biology, Geography, Chemistry. To learn natural sciences not only useful, but interesting. So many interesting things in the world we don't know. If we will learn natural sciences we will discover new things. They may save our life! Besides, know Geography you can travel in different cities and countries.

But these natural sciences are very difficult. In Chemistry many different elements. ~~Don't know~~ If you don't know Geography you will can't travel in different cities and countries because you don't know there these cities and count-

lys.

If you want know natural sciences you must fe-
ach them. Besides you may watch any TV prog
rams there you can discover new things
about natural sciences.

Whis best wishes,
Kenia
